

Early Childhood Literacy & Mathematics Proficiency Plans and Progress Reports

At Brillante Academy, we are dedicated to achieving yearly objectives that promote the early childhood literacy and mathematical development and progress of each scholar.

Brillante Academy is a dual language school that follows the classical tradition to prepare students for excellence in high school, college, and beyond. We will achieve this through the implementation of proven instructional practices from around the country, technology-based blended learning to provide personalized instruction, a dual-language immersion program, a comprehensive classical curriculum, and dedicated support and coaching for teachers.

Literacy/Setting Goals

- ❖ **Individualized Goals: 80%** of Brillante students in PK-2nd grade will show growth and achievement in Language & Literacy that indicate progress at the end of the year.
- ❖ **Short-term and Long-term Goals: 80%** of Brillante scholars will meet all standards that support phonemic awareness and fluency.

Math/Setting Goals

- ❖ **Individualized Goals: 80%** of Brillante scholars in Kinder-2nd grade will achieve each end of the module with an 85% or higher.
- ❖ **Short-term and Long-term Goals: 80%** of students are expected to achieve success in both short-term goals, such as counting to 20, and long-term goals, like understanding basic addition.

Special Population Mathematical Goals:

- ❖ **60%** of Brillante students in Kinder-2nd grade will achieve each end of the module with an 85% or higher.

Special Population Literacy Goals:

- ❖ **60%** of the student population in Grades K-2 at Brillante Sped will demonstrate growth and achievement in Dibels composite score, measuring phonemic awareness and fluency, by the end of the 2024-2025 school year.
